

RECIPROCALS 2022/23

Reciprocals this year have again been facilitated by the Canada West Ski Areas Association. They are for Western Canada resorts. The resorts reserve the right to change what they will offer and so the details of the discount have to be determined at the various ski hills. Some resorts have details on their websites however the exact discount offered will be determined at the ski hill. Reciprocal passes cannot be purchased on line

The following rules apply to our guests coming from other ski hills and for Mt Cain skiers visiting other ski hills.

For season pass holders the offer is generally for a 25% discount on passes. Skiers are required to show their season's passes to get the offer. The ski hill may ask for other photo identification as well. Some of the ski hills have blackout dates over Christmas, and some have blackouts on weekends and other times (race days, Spring break). **YOU MUST CHECK WITH EACH HILL TO FIND OUT THESE DETAILS.**

For staff pass holders the typical offer is for 1 free day pass and 50% off subsequent day passes. Many of the larger ski hills do not offer a free day only 50% off. Offers vary across ski hills so you need to confirm either via their website or at the ticket booth of the participating ski hill. Staff are required to have a dated letter of introduction from their manager as well as a valid pass. Staff must have another piece of photo identification. Black outs are the same as for season pass holders. **YOU MUST CHECK WITH EACH HILL TO FIND OUT BLACKOUT DETAILS.**

Note that we also have a standing agreement with Eagle Crest in Juno, Alaska. Season pass holders get 50% off a day pass. Staff receive 3 free day passes. They have a black out on Saturdays - NO free tickets.
